CAREER OBJECTIVE

I am a dedicated and tech-savvy individual with a B.com degree and a certificate in website development, searching for a challenging role at a progressive organization that offers immense growth opportunities and allows me to implement my advanced knowledge and skills to contribute to the success of the organization.

WORK EXPERIENCE

Junior Web Developer
Intuit Solutions

📅 August 2021 - current   📍 Khairthal (Remote location)

- Create website layout/user interface by using standard HTML/CSS practices.
- Write well designed, testable, efficient code by using best software development practices.
- Integrate data from various back-end services and databases.
- Gather and refine specifications and requirements based on technical needs.
- Create and maintain software documentation.
- Be responsible for maintaining, expanding, and scaling our site.
- Stay plugged into emerging technologies/industry trends and apply them into operations and activities.

Junior SEO - Link Building – Remote
Intuit Solutions

📅 Feb 2021 - Aug 2021   📍 Khairthal (Remotely)

- Not only backlinks come from websites that are well-respected and have high domain authority, but they must also come from web pages that have content relevant to our company.
- Develop monthly link building reports to communicate what backlinks were generated and how they affected search ranking.
- Work with SEO team to develop backlinks dashboard to measure growth and quality of backlinks.
- Implement backlink plans & measurable actions.
- Find new opportunities for relevant, local backlink sources.
- Stay up to date on new link-building strategies and regularly contribute new tactics and ideas to the team

Trainee PHP Web Developer (Laravel)

iSkylar Technologies Jaipur

- From June 2022 to July 2022
1. Installation of Laravel framework
2. Performing CRUD operation
3. Use of many commands of laravel
4. Authentication
5. Making Login and Logout system
6. Custom functions

From Sep 2022 to November 2022

Topics covered during internship :-

1. OOPS:

Classes and Objects
Defining a class; Defining instance variables and methods
Creating objects out of a class
Method calls via object references
Abstraction
Interfaces and Abstract classes
Abstract and non-abstract methods
Inheritance

2. *MySql Basics*

- Table & Views (CREATE, ALTER, TRUNCATE, DROP, Views)
- Queries (Insert, Update, Delete, Select)
- Clauses (WHERE, DISTINCT, FROM, ORDER BY, GROUP BY, HAVING)
- Conditions (AND, OR, AND OR, LIKE, IN, NOT, IS NULL, IN NOT NULL, BETWEEN)
- Joins
- Aggregate Functions
- Date/Time Functions
- Math Functions
- String Functions

Instead of above given topics I learned how to create login and logout system using CI framework And how to show the user info on dashboard. From installing CI to making a basic user profile is covered using many logical and coding fundamentals.
